Introductory Section

March 26, 2021

To the Honorable Mayor and City Council, City Manager, and Residents of Celina, Texas:

The City's management staff is pleased to submit the Comprehensive Annual Financial Report of the City of Celina ("City") for the fiscal year ending September 30, 2020. Provided herein is a complete set of financial statements in conformity with generally accepted accounting principles accepted in the United States of America ("GAAP") and audited in accordance with generally accepted auditing standards ("GAAS") by an independent licensed firm of certified public accountants.

The purpose of this report is to provide the council, management, staff, the public, and other interested parties with detailed information regarding the City's financial condition. State Law requires that every general-purpose local government publish a complete set of audited financial statements within six months of the close of the fiscal year. This report is hereby submitted as mandated by both local ordinance and state statutes required for the fiscal year ended September 30, 2020.

This report consists of management's representations concerning the finances of the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the City's various funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City is required to obtain an annual audit of the City's financial records and financial activities. BKD, LLP, a licensed, independent certified public accountants' firm, has audited the City's financial statements. The independent audit's goal is to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2020, are free of any material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified ("clean") opinions that the City's financial statements for the fiscal year ended September 30, 2020, are fairly presented in conformity with Generally Accepted Accounting Principles ("GAAP"). The independent auditor's report is presented as the first component of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal, and the two should be read in conjunction with each other.

OUR HISTORY

In the northwest corner of Collin County, Celina was not established until 1876, but settlers came into the area at a much earlier date. These settlers lived the lives of typical pioneers building their homes from logs or hauling lumber from Jefferson. They traveled by foot, horseback, or in wagons, making their clothes at home and raising what they had to eat. These early families, as well as later ones, mainly came from Tennessee or Kentucky.

In October 1879, a little settlement began to form a few miles southwest of the present-day Celina. John T. Mulkey, Celina's first Postmaster, renamed the City after Celina, Tennessee. The Methodist church was built in 1880 and also doubled as the school for a while. By 1885, a general store, mill, and drug store opened in "Old Celina". When the railroad came through City in 1902, residents made an effort to move the city's actual main street eastward toward the tracks. The result is where the City square stands today. Celina has always been a Small City with a Big Vision!

An excerpt from the Celina Record of 1937 states: "If you are casting about for a good place to make your home you should visit Celina and see for yourself what it has to offer. Some here occasionally say the grass is greener elsewhere and move away, but most of them decide there is no use trying find a better place in which to live and rear their families, come back and settle down firmly fixed in their belief that trying is a waste of time."

CURRENT DAY

It's an exhilarating time be in Celina! The estimated current population is 21,500 which has nearly tripled since 2010. This pace makes Celina one of the fastest-growing cities in the Dallas-Fort Worth Metroplex. Situated in high-growth Collin County and nestled between the major arteries of Preston Road to the east and the future Dallas North Tollway to the west, Celina's maximum projected buildout population is approximately 378,000.

In other words, Celina is positioned geographically, demographically and economically to quickly become a big player in the North Texas metropolitan community.

Celina's median household income is \$92,000, with an average home value of \$429,705. Residents are only minutes away from Frisco's "\$5 Billion Mile," major hospitals, and the top ranked Prosper and Celina school districts.

COMMUNITY

Celina celebrates its authentic culture. The signature event, CajunFest, as well as several other family-oriented events including Friday Night Farmer's Markets, Movies on the Square, Splash and Blast 4th of July Celebration, Beware! Of the Square and Christmas on the Square, promote Celina's community identity. For the adults, several local wineries promote an interest in culture and good wine.

CORE VALUES

EXCELLENCE

- ✓ We always do our best
- ✓ We embrace innovation and efficiency while remaining good stewards of City resources
- ✓ We are accountable and take pride in our work
- ✓ We seek opportunities to learn and expand our professional horizons

COMMUNITY

- ✓ We are a unified body and work as a team
- ✓ When we disagree, we resolve it according to our Core Values
- ✓ We value and respect all employees and our customers
- ✓ We foster a culture that includes understanding, support, balance, and a sense of humor
- ✓ We embrace openness, diversity, and inclusion

INTEGRITY

- ✓ We do the right thing at all times
- ✓ We are committed to building and maintaining creditability and trust both internally and externally
- ✓ We are accountable in our words and actions
- ✓ We question actions that may be inconsistent with our Core Values

SERVICE

- ✓ We are selfless public servants and believe in helping others
- ✓ We treat everyone the way we wish to be treated
- ✓ We are caring and empathetic in all we do
- ✓ We work to deliver excellent service to all we encounter

LIFE CONNECTED

What does “Life Connected” mean?

Celina is literally wired for connectivity with high-speed fiber but also encourages personal connections through interconnected trails, open patios, and a thriving City square. Businesses and communities are built on these connections. Celina brings people together.

The list of Celina “Life Connected” accomplishments are as follows:

- ✓ Sharing Business Spotlight Videos
- ✓ Created a LifeInCelinaTX.com website that features sections for Live, Work, Play and Learn activities around Celina.
- ✓ Launched an official community podcast of Celina, “Life in Celina”. On every episode, we celebrate and share the stories behind the amazing people, businesses, and groups that make Celina Home.

Life Connected.

PROFILE OF THE GOVERNMENT

The City of Celina is a home-rule city and operates on a Mayor-Council form of government. The governing body includes the Mayor and six City Council members. All governing body members serve three-year terms. The governing body, being the elected representative of the people, adopts all ordinances and resolutions and determines the general goals and policies.

The City Manager is the chief administrative officer of the government and is responsible for the enforcement of laws and ordinances, the appointment and supervision of the directors or department heads, and City functions' performance.

The City of Celina provides a full range of services supported through the City's empowerment to levy property tax on both real and personal properties located within its boundaries and the ability to extend its corporate limits by annexation when deemed appropriate by the City Council. These services include fire and police services, ambulance and emergency services, the public library, parks and recreation, water, sewer, trash pickup, traffic engineering, streets and infrastructure, community development including planning and zoning, public improvements, economic development and other administrative services.

The financial reporting entity includes all funds of the primary government as well as its component units. The component units are legally separate entities for which the primary government is financially accountable, but they are not part of the primary government's operations. The Celina Community Development Corporation (Type B) and Celina Economic Development Corporation (Type A) are included in the City's financial statements as discreetly presented component units.

FINANCIAL INFORMATION

Financial System and Budgetary Controls

City management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse. Management must also ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The contract of reasonable assurance recognizes that (1) the cost of control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework

The City's accounting records for general governmental activities are maintained on a modified accrual basis, with revenues recorded when available and measurable, and expenditures being recorded when the services or goods received, and the liabilities incurred. Accounting records for the City's water and sewer and other proprietary activities are maintained on the accrual basis.

Life Connected.

City Council is required to adopt an annual operating budget no later than October 1st, the beginning of the fiscal year. The process begins with the staff of each department submitting their annual budget requests. A collaborative team made up of the City Manager, Executive Directors and Department Directors, all work together to ensure each proposed fund expense and revenue is balanced that comprise into the City Manager's Proposed Budget submitted to City Council for approval. The proposed budget receives additional scrutiny by City Council by holding workshop sessions. Prior to official adoption of the budget and tax rate by City Council, any required public hearings on the proposed tax rate and budget are held to allow for public input.

The objective of budgetary controls is to ensure compliance with legal provision contained in the annual budget approved by the City Council. The budget is developed on a departmental level and adopted at the fund level. The level of control at which expenditures may not exceed budget with our City Council approval is at the fund level. The City Manager has authority to approve individual departmental budget overages. This budgetary level serves as the foundation for the City's financial planning and control. The City Council approves any amendment or additional funding requests for appropriations when the budget is exceeded at the fund level or for any that were unforeseen during the regular budget process.

The accompanying Comprehensive Annual Financial Report incorporates funds of the City, includes all government activities, organizations, and functions for which the City is financially accountable including its component units. The City's component units are legally separate entities for which the City is financially accountable but are not part of the City's operations.

LOCAL ECONOMY

During the past year, Celina has experienced tremendous growth. The growth is primarily because of new residential developments coming into the City. These new developments will bring significant number of homes into Celina over the next several years. A total of 5,961 homes have been permitted between 2016 and 2020. The number of single-family construction permits has risen from 1,280 to 1,562 during the past fiscal year and another increase is expected in 2021, the current number of residential for FY 2021 as of March 2021 is 1,253, so a modest estimate for fiscal year end 2021 would be close to 1,900 additional permits. In 2020, Celina was named the #1 Fastest Growing City in North Texas by Dallas Business Journal for the second year in a row. This rate of growth will have a significant impact on the City, the counties and the school districts.

During fiscal year 2020, Celina welcomed Rollertown Brewery, All Storage, Little Wooden Penguin, along with 28 other businesses into the downtown area. With new retail development comes the expectation that sales tax revenue will increase.

The City felt the effect of COVID, however with the local demand for online shopping and shop local campaigns, the City saw a 45% increase in sales tax during FY 2020 as compared to FY 2019 and is optimistic that there will be an increase in sales tax revenue during FY 2021. The City also supported its small businesses through its Coronavirus Aid, Relief, and Economic Security (CARES) Act funding.

Celina ISD is in the process of renovating and expanding Celina Elementary school. Collin College Celina Campus schedule to open in fall of 2021. The college will provide much needed vocational training for the Celina as well as the region.

MAJOR INITIATIVES

The City has completed several studies and plans during fiscal year 2020. These plans and initiatives will shape the development of Celina for the next decade.

The list of these accomplishments are as follows:

- ✓ Completed the Parks and Trails Master Plans.
- ✓ Updated Zoning Ordinance
- ✓ Adopted Collin County Outer Loop Overlay District
- ✓ Developed a 10-year capital improvement project list for Downtown that focuses on improving drainage, roadways, and water and sewer infrastructure.
- ✓ The City became an official “Gigabit City” designation from the Office of the Governor Greg Abbott in October 2020.

Public infrastructure improvement projects for the City of Celina, which are funded and contacted by the City, are called Capital Improvement Projects.

Capital Improvement Projects FY 2020 Highlights:

- ✓ Fire Station # 2 was completed and came online in FY 2020.
- ✓ Preston Road Water and Wastewater Line Improvements.
- ✓ Wastewater Treatment Plant Expansion.
- ✓ Land acquisitions were completed for the expansion of the Public Works service center, a new Police administration building and land for future park projects.
- ✓ A major renovation of the City Hall Annex building, Economic Development building and partial renovation of the existing City Hall was completed in FY 2020.
- ✓ City began major renovation and upgrades to Old Celina Park in FY 2020.
- ✓ Collin College and the Dallas North Tollway extension broke-ground in FY 2020. These two developments will continue to help attract new residents and businesses.
- ✓ A major renovation of the City Hall Annex building, Economic Development building and partial renovation of the existing City Hall was completed in FY 2020.

- ✓ City began major renovation and upgrades to Old Celina Park in FY 2020.
- ✓ Collin College and the Dallas North Tollway extension broke-ground in FY 2020. These two developments will continue to help attract new residents and businesses.

ACKNOWLEDGMENTS

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Finance Department. We wish to thank all government departments for their assistance in providing the data necessary to prepare this report. We would also like to thank the Mayor and City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Celina's finances.

Respectfully submitted,

Robin Bromiley

City of Celina, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Celina (City), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other postemployment benefit information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules, introductory, and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated March 26, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Life Connected.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Management's discussion and analysis provides a narrative overview of the financial activities and changes in the financial position of the City of Celina, Texas (the City), for the fiscal year ended September 30, 2020. It is offered here by the management of the City to the readers of its financial statements. Readers are encouraged to consider the information presented here in conjunction with the information furnished in our letter of transmittal in the introductory section and the City's financial statements and accompanying notes.

FINANCIAL HIGHLIGHTS

- The capital assets represent the city's investment in infrastructure, which increased this fiscal year to \$69.92 million. Of this amount, governmental activities increased \$34.62 million, bringing net capital assets to \$102.8 million. The Business-type activities grew \$35.3 million to a total net capital assets of \$114.5 million.
- The City's total net position increased by \$57.4 million during the fiscal year.
- The City's total amount of outstanding debt is \$142.4 million. No bonds were issued in the fiscal year 2020.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts; management's discussion and analysis (this section), basic financial statements, required supplementary information, and combining statements for nonmajor governmental funds.

The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are Government-Wide Financial Statements that provide information about both the short-term and long-term financial status of the City as a whole.
- The remaining statements are Fund Financial Statements that focus on individual parts of the City's government, reporting the City's operations in more detail than the Government-Wide statements.
 - o The Governmental Fund Statements take a short-term view and demonstrate how general government services like public safety were financed during the fiscal year.
 - o The Proprietary Fund Statements offer both short-term and long-term financial information about the activities the government operates like businesses, such as the water and wastewater system.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

The financial statements also include notes that explain information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. In addition to these required elements, we have included a section with combining statements that provide details about our nonmajor governmental funds, each added together and presented in single columns in the basic financial statements.

Government-Wide Financial Statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. Both are prepared using the economic resources focus and the accrual basis of accounting, meaning that all the current year's revenues and expenses are included regardless of when cash is received or paid.

Statement of Net Position. The Statement of Net Position presents information on the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources including capital assets and long-term obligations. The difference between the four is reported as net position. Over time, the increases or decreases in net position may serve as a valuable indicator of whether the City's financial position is improving or deteriorating. Other indicators of the City's financial position should be taken into consideration, such as the change in the City's property tax base and condition of the City's infrastructure (i.e., roads, drainage systems, water and sewer lines, etc.), in order to more accurately assess the overall financial condition of the City.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. It focuses on both the gross and net costs of the government's various activities and thus summarizes the cost of providing specific government services. This statement includes all current year revenues and expenses.

The Statement of Net Position and the Statement of Activities divide the City's activities into two types:

- *Governmental Activities.* Most of the City's basic services are reported here, including general government, police and fire protection, municipal court, streets, park and recreational activities, cultural events, and library. Property taxes, sales taxes, franchise taxes, and building permits provide the majority of the revenue for these activities.
- *Business-Type Activities.* Activities for which the City charges customers a fee to pay most or all of the costs of a service it provides are reported here. The City's business-type activities include water distribution/ wastewater collection, solid waste collection/ disposal, and stormwater drainage.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Fund Financial Statements. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. These statements focus on the most significant funds and may be used to find more detailed information about the City's most significant activities. The funds of the City can be divided into two categories: governmental funds and proprietary funds.

- **Governmental Funds.** Governmental funds are used to account for the majority of the City's activities, which are essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of the governmental funds' financial statements is narrower than that of the government-wide financial statements. Therefore, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' Balance Sheet and the governmental funds' Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison. These reconciliations explain the differences between the government's activities as reported in the government-wide statements and the information presented in the governmental funds' financial statements.

The City reports fifteen individual governmental funds. Major funds are presented separately in the governmental funds' Balance Sheet and in the governmental funds' Statement of Revenues, Expenditures, and Changes in Fund Balances and include the General Fund, the Debt Service Fund, the Street Construction Fund, Facilities Improvement Fund, Parkland Feeds Fund, Fire Improvement Fund, and the Bond Fund. Data for the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

- **Proprietary Funds.** When the City charges customers for services it provides, the activities are generally reported in proprietary funds. The City's only proprietary fund is the Water & Sewer Fund.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and wastewater operations, solid waste collection and disposal services, and stormwater drainage operations. These services are primarily provided to outside, or nongovernmental, customers.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail.

Notes to the Financial Statements. The notes provide additional information that is essential to gain a complete understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information (RSI) concerning the City's progress in funding its obligation to provide pension benefits and other post-employment benefits to the employees.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

At the end of the fiscal year 2020, the City's net position (assets and deferred outflows of resources exceeding liabilities and deferred inflows of resources) totaled \$153.15 million. Total assets of the City on September 30, 2020 were \$309.3 million, deferred outflows of resources were \$670,475, total liabilities were \$156.5 million, and deferred inflows of resources were \$333,014 resulting in a net position balance of \$153.15 million, a 60% increase over the previous year. This analysis focuses on the net position and changes in net position.

Net Position. The largest portion of the City's net position, \$105.8 million, reflects its investment in capital assets (land and improvements, buildings, infrastructure, vehicles, machinery, and equipment), less any related outstanding debt used to acquire those assets. The City uses these assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City reports its capital assets net of related debt, the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted portion of the City's net position, \$2.23 million for debt, and \$2.45 million for capital projects represent resources that are subject to external restrictions on how they may be used. The City's unrestricted net position of \$42.4 million reflects commitments, not limited to utility construction projects \$14.4 million, 2019 bond issuance for capital projects \$17.6 million, utility impact fees improvements \$10.45 million, and street construction projects \$6 million.

Changes in Net Position. The government's overall net position increased \$57.4 million over the prior fiscal year. The reasons for the overall increase are discussed in the following sections for governmental activities and business-type activities.

Government activities increased the City's net position by \$26.3 million from the prior year. This was due in part to an increase in ad valorem tax revenues, building permit revenues, and capital contributions. Key revenue and expense transactions are as follows:

- Major revenue increases over the previous year were property tax revenue of \$822,670 and sales tax revenue of \$575,525. This was due to an increase in the assessed value of taxable property from \$1.5B to \$2.1B and steady sales tax collections despite the impact of the COVID-19 pandemic.
- Building Permit Revenue increased \$1.9 million over the prior year. The City experience high growth in new home permits in FY 2020. In FY 2019, the City issued 1,280 new single-family permits whereas, in FY 2020, the City issued 1,562, representing an increase of 22%.
- The City received \$15.8 million in capital contributions from developers in the form of new roads and the subdivision's infrastructure.
- General government expenses increased approximately \$6.3 million over last year. This was anticipated due to the demands on service from the additional housing developments and consequently more residents moving to the City. The expenditures were evenly distributed across service-oriented departments and infrastructure development.

City of Celina, Texas
Management's Discussion and Analysis
September 30, 2020

Business type activities increased net position by \$31.1 million. Key elements to the change in net position are as follows:

- The City received \$23.6 million in capital contributions from developers in the form of new water, drainage, and sewer lines with the subdivision's infrastructure.
- The City collected \$6.49 million in impact fees and capital recovery fees for future water and wastewater infrastructure updates.
- The restricted net position is \$50 million, comprised of the capital assets and water and wastewater infrastructure in place throughout the city.
- The unrestricted net position is \$21.1 million. Of this amount, \$13.8 million is committed to Utility Impact Fee projects, Storm-Water Drainage projects, Water Capital Recovery projects, and Wastewater Capital Recovery projects.

Water sales increased by \$1.6 million, or 22%, over the previous fiscal year. This increase was due to the increased number of customers and a slight increase in rates. The city's number of water customers grew by approximately by 1400 in one year, a 21.2% increase from the prior year. Simultaneously, the cost for water, sewer treatment, certificate of convenience and necessity service areas (CCN), and new meter installs; increased 25% over last year.

- Water sales and building permits increased at the same rate of approximately 22%. This correlation shows the new homes are being occupied at the same rate the homes are built.
- Expenses increased by 16.8% due mainly to the \$490,241 increased water purchasing cost, \$193,937 increase in garbage collection cost, and \$515,531 in personnel expenses to keep up with increased service demands.

Management's Discussion and Analysis

September 30, 2020

FINANCIAL ANALYSIS OF THE FUNDS

The focus of the City's funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information helps assess the City's financing requirements. In particular, the unassigned fund balance in the governmental funds may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

Governmental Activities. Governmental activities increased net position by \$26.3 million:

- **General Fund** – The General Fund is the primary operating fund of the City. The fund balance is \$8.87 million, representing a reduction of \$2.26 million from the previous year. The intentional reduction provided for the full implementation of a capital equipment replacement fund. The General Fund revenues had a healthy increase due to increased development and growth of the City. Permits and inspection fees had an increase of \$1.9 million over the prior year. Ad valorem tax revenue also recognized an increase of \$1.37 million. The General Fund's overall expenses increased 15% from last year from \$15.5 million to \$17.9 million, approximately \$2.4 million. The increase was attributable to rising demands of service amongst the majority of the departments such as Development Services by 20%, Fire Department by 14%, and Police by 13%.
- **Debt Fund** – The Debt Fund decreased \$269,017 due to the increased debt payment of \$1.2 million over the prior year. The ending fund balance is \$2.23 million.
- **Street Construction Fund** – The Street Construction Fund decreased \$18 million in the current fiscal year due to a transfer of \$8.2 million into the bond fund for reimbursement and another \$9.8 million expended on capital assets.
- **Bond Fund** – The City focused on reallocating capital funds for improved oversight and accountability. The bond fund was created to align the funds with bond issuance, which accounts for the \$17.2 million transfer in from other governmental funds and the \$7.9 million Capital Outlay for capital projects. In addition, the Facilities Improvement Fund and Fire Improvement Fund were closed. Both have a zero end-of-year fund balance.
- **Parkland Fee Fund** – The Parkland Fee Fund accounts for the financing and acquisition of major capital park projects. The City received this year \$2.34 million in revenue from park fees, over twice the \$1.05 million originally budgeted. In addition, the City received a \$1 million Collin County Open Space Grant for land purchase. The City purchased \$1.3 million in land and spent another \$142,000 on construction and engineering.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Business-Type Activities. Business type activities increased net position by \$31.1 million, which includes \$23.6 million of capital contributions and net operating income of \$7.5 million:

- **Water Wastewater Fund** – The fund had a net income of \$7.5 million, including operating income of \$12.3 million, less non-operating expenditures of \$2.1 million, less transfers out of 2.7 million. The net income includes the combination of seven separate utility operating funds. These are separated to allow for proper control and accountability to ensure the funds' disposition meets statutory requirements. For example, Impact fees and Capital Recovery Fees, both of which earned substantial revenues this year, are managed through separate funds but combined within the operating portion of this fund.

BUDGETARY HIGHLIGHTS

In the fiscal year 2019-2020, the General Fund expenditure budget was increased by \$805,773 over the 2018-2019 budget. During the fiscal year, Amendments increased the original revenue budget by \$616,983 and increased the expenditure budget by \$908,074. Amendments were for building permits, grant awards, and unanticipated expenditures during the year. During the fiscal year, the City regularly reviews the budget and determines if a budget amendment is reasonable and necessary. All budget amendments receive scrutiny and City Council approval through an ordinance.

In the General Fund, the actual revenue received in comparison to the final budget was over by \$3,516,281. This positive variance is most noticeable in licenses and permits and sales tax revenue. General Fund expenditures had a final budget to actual variance of \$771,450 prior to other financing sources/uses. The savings are attributable to the city receiving grant awards that were awarded post-budget adoption, and therefore, the City realized an overall savings.

During the council budget workshop, an Economic Stabilization Fund and funding 100% of contributions needed to replacement schedule for future capital needs into the Capital Equipment Replacement Fund was established. The City implemented those two items and transferred \$500,000 and \$2.8 million into the funds. Also, the City restructured the funds by establishing a pooled cash system. This required consolidating and eliminating funds in-line with the funding resources such as bonds.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: The City's investment in capital assets for its governmental and business-type activities as of September 30, 2020, amounts to \$217.26 million (net of accumulated depreciation), as shown in the table below. This investment in capital assets includes land, buildings, improvements, vehicles, machinery and equipment, infrastructure, and construction in progress. Additional information on the City's capital assets can be found in Note 5 to the financial statements.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Some of the items completed during the fiscal year include:

- \$5.9 million to renovate the Annex, City Hall, and the Parks/ EDC building
- \$19.7 million in streets and drainage projects were completed of this amount, \$16.8 million were completed by developers and contributed to the City to add to our capital assets
- \$1.5 million for land for the Law Enforcement Center and \$1.6 million for land for park expansion for Traditions Trail
- \$3.1 million in vehicles and equipment, including an investment in equipment for Fire Station #2, new command and patrol vehicles for the Police Department, and vehicles for Public Works.

Additional information on the City's long-term debt can be found in Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In the fiscal year 2020-2021 budget, the City's goal has been to successfully provide the City Council with a collaborative budget that included departmental participation to collectively balance the budget. To promote transparency during the process, the City implemented M-budget software. The following revenues and expenditures were important components of the budget.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Property taxes. According to the Collin and Denton County Central Appraisal District (DCAD), the certified taxable value after the homesteads with tax ceiling is estimated with appraisal review board grand totals is \$2,110,342,718. This value is 26% or \$440 million more in assessed valuation than the 2019 adjusted taxable value (as of 07/30/2020). Of this increase, \$270 million is attributable to new taxable values added to the tax roll, including improvements and personal property.

Building Permits growth. Revenues from permits in FY 2020-2021 are planned at \$6.5 million with a 6.56% growth rate over the estimated FY 2019-2020 of \$6.1 million. The projected total permits for FY 2020-2021 are 1,500.

The City of Celina continues to see strong population and economic growth. In the last ten years, the population has grown from 6,028 in 2011 to 21,430 in 2020. The leading driver of the City's population growth is a strong local housing market. The City issued 1562 building permits, which increased by 22% over last year's 1,280. This is twice the increase from the previous year. Accordingly, permit fee collections have increased by \$931,164 or 14% for the same period. For the fiscal year 2019-2020, the City collected \$7.6 million in permit fees compared with \$6.7 million for the same period last year. The increase in building permits and fees is a result of strategic planning going back to 2011.

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

CARES Act. In response to the COVID-19 pandemic, Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The act provides financial grants to offset some additional expenses and foregone revenue due to COVID-19. The City received the COVID-19 federal grant of \$675,997 in fiscal 2020 as pass-through grants from Collin and Denton Counties.

Staffing. The City's population growth has increased at an average pace of 125% over the last five years. Within the FY 2020-2021 budget, seventeen new, full-time positions and a 3% step increase were included to assist the departments in keeping with the service level demands. The seventeen new personnel, including compensation and benefits, cost \$1.2 million and the compensation and benefits increase for existing personnel cost \$1.8 million. In the March 2021 mid-year amendments, another 11 positions were approved by Council to bring full-time equivalent employees (FTE) to 199.5.

Capital projects. The following capital projects are scheduled to start in FY2021:
Governmental:

- Law Enforcement Center, Phase I Design - \$1,800,000
- Fire Station #3 Design - \$1,000,000
- Downtown Patio Plaza design - \$725,000
- Downtown Inner Loop Construction - \$6,500,000
 - Colorado from Walnut to Maple
 - Pecan from Colorado to Arizona
 - Beech from Colorado to Louisiana
 - Ohio from Beech to Pecan
- Choate Parkway from Preston Road to Kinship Parkway - \$3,600,000
- Frontier Parkway from Dallas Parkway to Preston Road - \$5,700,000
- Legacy Road Bridge - \$2,800,000
- Old Celina Park Playground Expansion - \$2,000,000
- Park Land Acquisition - \$7,300,000

City of Celina, Texas

Management's Discussion and Analysis

September 30, 2020

Water/Wastewater:

- Six Million Gallon Above Ground Storage Tank - \$9,500,000
- 24" Water Line on Coit Road from Sunset to CR 100 - \$8,700,000
- 12" Water Line on N Preston Rd from Founders Lane to Settlers Ridge - \$600,000
- Design for 1 MGD Wastewater Plant Expansion - \$1,000,000
- Oklahoma Sewer Line Expansion - \$1,000,000

PIDS / TIRZ. Although cities have various tools at their disposal to generate growth, the City of Celina, pursuant to the Public Improvement District Act, Texas Local Government Code, Chapter 372, as amended (PID Act), has used this tool with greater frequency and entered into a negotiation with several developers that were interested in developing large housing developments in the southern border of the City. The PID strategy necessitates a continual partnership between the City, the developer, and subsequent homeowners. In 2014, the City created the first PID and issued its first Special Assessment Bonds for the district. As of September 30, 2020, the City of Celina has created eleven PIDs with a total bond principal outstanding of \$125,045,000. In addition to the PID strategy, the City has developed a Tax Increment Reinvestment Zone (TIRZ) that will assist with encouraging economic development in the region. For more information on the City's PIDs, visit <https://www.municap.com/tx-city-of-celina.htm>.

Fund Balance and Reserve. By ordinance, the City is required to maintain 25% of annual operating expenses, equal to a 90 days reserve, as a balance in the governmental fund account. Revenues from property taxes to pay for services are typically delayed due to the timing of new growth showing up on the tax rolls resulting in cost for new growth to be paid immediately, while the revenues follow a year later.

The City's proprietary fund, Water Wastewater Fund, practices a reserve of 40%, or 146 days, of working capital. The primary source of revenue is generated by water sales dependent on rate and consumption by customers, while cost is at a 'pay as you go.' This sole source revenue creates the need for a higher fund balance reserve. The reserve is designed to smooth out the low seasonal sales common in the winter months and even the occasional Texas 'wet' summers in an effort to keep rate increases at a minimum.

The 40% reserve is applicable to actual operating expenditures and excludes funds received that are dedicated to capital projects or have restrictions. For both funds, the City monitors the fund balances as a good fund balance is attractive to rating agencies in evaluating a city's financial health.

City of Celina, Texas
Reconciliation of the Governmental Fund Balance Sheet
To the Statement of Net Position
September 30, 2020

Fund balances of governmental funds	\$ 40,561,514
Amounts presented for governmental activities in the statement of net position are different because:	
Capital assets reported in the statement of net position are not financial resources and are not reported in the fund balance sheet.	102,786,257
Receivables not measurable and available within 60 days of year-end, and therefore are unavailable in the fund financial statements.	77,984
Net pension asset \$249,857, the related deferred outflows of resources \$534,744, and the related deferred inflows of resources (\$273,598) are not available to pay current-period expenditures and therefore are not recorded in the funds.	511,003
Total OPEB liability (\$144,866), the related deferred outflows of resources \$35,765, and the related deferred inflows of resources (\$9,575) are not due and payable in the current period and therefore are not recorded in the funds.	(88,676)
Interest due on long-term debt is recorded as accrued interest payable in the statement of net position but does not become a liability on the fund statements until the date due	(174,856)
Long-term liabilities are reported in the statement of net position but they are not due and payable in the current period and therefore are not reported as liabilities in the fund balance sheet.	(61,770,419)
Net position of governmental activities	\$ 81,902,807

City of Celina, Texas
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
Year Ended September 30, 2020

Net change in fund balances – total governmental funds	\$ (11,114,057)
Amounts reported for governmental activities in the statement of net position are different because:	
Governmental funds report capital outlays as expenditures, while in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay of \$23,537,609 exceeded depreciation expense of (\$4,528,965).	19,008,644
Governmental funds do not recognize contributed capital assets. However, in the statement of activities the acquisition value of those assets are recognized as revenue, then allocated over their estimated useful lives and reported as depreciation expense.	15,626,747
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of debt retired for the year \$2,912,011.	2,912,011
Changes in the liabilities for compensated absences do not require the use of current resources and therefore are not recorded in the funds.	(260,859)
Changes in long term amounts for net pension liability \$489,463, the related deferred outflows of resources (\$235,796), and the related deferred inflows of resources (\$238,001) are not recorded in the funds.	15,666
Changes in long term amounts for OPEB liability (\$40,244), the related deferred outflows of resources \$22,416, and the related deferred inflows of resources (\$3,292) are not recorded in the funds.	(21,120)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This includes the change in deferred inflows from ad valorem taxes of (\$12,996), fines receivable of (\$13,060), and grants receivable (\$122,803).	(148,859)
The amortization of bond premiums of \$297,696 are not recorded in the funds and the decrease in accrued interest on debt of \$7,006 reduces expense in the Statement of Activities.	304,702
Change in net position – governmental activities	<u>\$ 26,322,875</u>

Notes to Financial Statements

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 1: Introduction and Summary of Significant Accounting Policies

The financial statements of the City of Celina, Texas (City) and its component units, Celina Economic Development Corporation and Celina Community Development Corporation, collectively identified as the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The accounting and reporting framework and the more significant accounting principles and practices of the City are discussed in subsequent sections of this note. The remaining notes are organized to provide explanations, including required disclosures, of the City's financial activities for the fiscal year ending September 30, 2020.

Reporting Entity and Related Organizations

The City is a municipal corporation governed by an elected mayor and six member City Council. The City provides general administration, public works, police and judicial, and fire and emergency services to its residents. The Council hires a City Manager for day to day operations.

The City Council has the authority to make decisions, appoint administrators and managers, significantly influence operations; and has the primary accountability for fiscal matters. The City is not included in any other governmental "reporting entity" as defined by Governmental Accounting and Financial Reporting Standards.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth in GASB Statements No. 14 and 39 as amended by GASB Statement 61, *The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and No. 34*. These statements define the reporting entity as the primary government and those component units for which the primary government is financially accountable. In addition, component units may be included in the reporting entity based on the nature and significance of the relationship with the primary government or based on being closely related or financially integrated with the primary government. Based on these criteria, the City has the following component units at September 30, 2020:

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

**Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)**

Discretely Presented Component Units

Celina Economic Development Corporation (CEDC) - CEDC serves all citizens of the government and is governed by a board appointed by the City Council. The City Council may remove the CEDC board for cause. The City has the ability to impose its will on CEDC and the potential for financial benefit or burden from CEDC's operations. CEDC is a nonprofit corporation governed by Section 4A of the *Texas Development Corporation Act of 1979* and organized for the public purpose of aiding, promoting, and furthering economic development within the City of Celina, Texas.

Celina Community Development Corporation (CCDC) - CCDC serves all citizens of the government and is governed by a board appointed by the City Council. The City Council may remove the CCDC board for cause. The City has the ability to impose its will on CCDC and the potential for financial benefit or burden from CCDC's operations. CCDC is a nonprofit corporation governed by Section 4B of the *Texas Development Corporation Act of 1979* and organized for the public purpose of the promotion and development of industrial and manufacturing enterprises to promote and encourage employment and the public welfare of the City of Celina, Texas.

Neither CEDC nor CCDC prepare separate financial statements.

Government-Wide and Fund Financial Statements

Government-wide financial statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. The primary government and component units are presented separately within the financial statements with the focus on the primary government. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

**Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)**

Fund Financial Statements

Fund financial statements are provided for governmental and proprietary funds. Major individual governmental funds and proprietary funds are reported in separate columns with composite columns for nonmajor funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The financial statements of the City are prepared in accordance with generally accepted accounting principles (GAAP). The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide statements are prepared using the *economic resources measurement focus* and the *accrual basis of accounting* generally including the reclassification or elimination of internal activity (between or within funds). Proprietary fund financial statements and financial statements of City component units also report using this same measurement focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met.

Governmental fund financial statements are prepared using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for general obligation bond, capital lease principal, pension and other postemployment benefit obligations, compensated absences, and interest which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual include sales and use taxes, property taxes, franchise taxes, grant revenues, and investment income. In general, other revenues are recognized when cash is received.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for the proprietary fund are charges to customers for water and sewer sales or services. Principal operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as *non-operating* in the financial statements.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

City of Celina, Texas
Notes to Financial Statements

**Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)**

Fund Types and Major Funds

Governmental Funds

The City reports the following major governmental funds:

General Fund – reports as the primary operating fund of the City. This fund is used to account for all financial resources not reported in other funds.

Debt Service Fund – accounts for the accumulation of financial resources for the payment of principal and interest on the City's general obligation debt. The City annually levies ad valorem taxes restricted for the retirement of general obligation bonds, capital leases and interest. This fund reports all such ad valorem taxes collected.

Street Construction Fund – accounts for the financing and acquisition of major capital street projects. Fund resources are provided primarily through bond sales and interest earnings.

Facilities Improvement Fund – accounts for the financing and acquisition of major capital facilities improvement projects. Fund resources are provided primarily through bond sales and interest earnings.

Parkland Fees Fund – accounts for the financing and acquisition of major capital park projects. Fund resources are provided primarily through developer park contributions and grants.

Fire Improvement Fund – accounts for the financing and acquisition of capital fire improvement projects. Fund resources are provided primarily through bond sales and interest earnings.

Bond Fund – accounts for the acquisition or construction of streets and other capital projects being financed through bond proceeds, or transfers from other funds.

Additionally, the City maintains the following nonmajor governmental funds:

Roadway Impact Fees Fund – accounts for the receipt and expenditure of roadway fees paid to the City.

Capital Equipment Replacement Fund - accounts for the financing and acquisition of capital public safety projects. Fund resources are provided primarily through fire and police fees.

Capital Acquisition Fund- accounts for the financing and acquisition of capital projects. Fund resources are provided primarily through bond sales and interest earnings.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

**Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)**

Roadway Capital Recovery Fees Fund – accounts for the receipt and expenditure of road capital recovery fees paid to the City.

Technology Fund – accounts for the receipt and expenditure of technology funds. Fund resources are provided primarily through technology fees.

Stabilization Fund – established to help the City maintain resiliency by ensuring adequate balance to cash flow requirements during economic turbulence.

Developer Capital Fees Fund – to account for Developer Fees paid to build capital projects per the agreements.

Court Special Revenue Fund – to account for the receipt and expenditure of court security and technology funds. Fund resources are provided primarily through contributions, donations and court security fees.

Other Special Revenue Funds – to account for various grants, PEG fees, Law Enforcement, and Contributions/Donations to the City.

Proprietary Funds – The City reports the following major Proprietary fund:

Water and Sewer Fund – accounts for the operating activities of the City's water and sewer utilities services.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position Cash and Investments

The City maintains cash and investment pools which are shared by the various governmental funds. In addition, non-pooled cash and investments are separately held and reflected in the respective individual funds. These pooled and non-pooled cash and investment pools are displayed on its respective balance sheet as "cash and cash equivalents" and investments.

Investments are stated at fair value within the fair value hierarchy established by generally accepted accounting principles.

Bank certificates of deposit are carried at amortized cost which approximates fair value.

The City reporting entity considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)

Inventories and Prepaids

Inventories consisting of expendable supplies held for consumption in governmental funds are reported using the expenditure method. Under this method, amounts paid for these items are reported as expenditures when purchased. Inventories, when material, are valued at cost stated on a first-in, first-out basis.

Prepaid items record payments to vendors that benefit future reporting periods and are reported on the consumption basis at cost on the government-wide and fund financial statements.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element represents a consumption of net position that applies to a future reporting period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government reports deferred outflows related to pension and OPEB in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Unavailable revenue, which arises only under a modified accrual basis of accounting, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, the government reports deferred inflows related to pension and OPEB in the government-wide statement of net position.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)

Capital Assets, Depreciation, and Amortization

The City's property, plant, equipment and infrastructure with useful lives of more than one year are stated at historical cost, or if historical cost is not available, they are stated at estimated historical cost. Donated assets are reported at acquisition value. These assets are reported in the government-wide financial statements in the applicable governmental or business-type column or in the proprietary fund. The City maintains infrastructure asset records consistent with all other capital assets. The City generally capitalizes assets with a cost of \$5,000 or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is reported.

Estimated useful lives, in years, for depreciable assets are as follows:

Buildings	40
Road infrastructure	15-50
Water & sewer infrastructure & rights	20-40
Vehicles	5
Furniture, machinery, and equipment	5

Long-term Debt, Deferred Bond Credits and Bond Discounts/Premiums

In the government-wide, proprietary and component unit financial statements, outstanding debt is reported as liabilities. Bond discounts are capitalized and amortized over the shorter term of the old or new bonds using the straight-line method. Bond premiums are capitalized and amortized over the life of the new bonds using the effective interest method. Issuance costs are expensed.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)

Defined Benefit Other Postemployment Benefit Plans

The City has a single-employer defined benefit other postemployment benefit (OPEB) plan (Plan). For purposes of measuring the total OPEB liability for the Plan, deferred outflows of resources and deferred inflows of resources related to the OPEB plan, and OPEB expense have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms for the Plan.

Compensated Absences

Full-time employees earn vacation leave for each month of work performed. Progressive accrual of vacation leave is based on the number of years the individual is employed by the City. After completion of a probationary period of employment, accrued vacation leave is paid upon termination of employment. Full-time employees also earn sick leave time. Unused sick leave is not paid upon termination of employment; therefore, no monetary obligation exists.

Compensated absences are reported as accrued in the government-wide, proprietary, and component unit financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees. These are included in accrued salaries and benefits, as applicable.

Fund Equity

The City implemented GASB Statement 54 standards for the classification of fund balances in the governmental funds. The fund balances of governmental funds are defined as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form, such as inventory or prepaid items or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the City Council. The City Council is the highest level of decision making authority for the City. Commitments may be established, modified, or rescinded only through a formal resolution of the City Council.

Assigned – amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council or through the City Council's delegation of this responsibility to City management through the budgetary process.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

**Note 1: Introduction and Summary of Significant Accounting Policies
(Continued)**

Unassigned – all other spendable amounts in the general fund. The General Fund is the only fund that reports a positive unassigned fund balance amount.

The City Council delegates the responsibility to assign funds to the City Manager, Director of Finance, or other designees.

When expenditures are incurred for which both restricted and unrestricted fund balance is available the City considers restricted funds to have been spent first. Similarly, committed funds are considered to have been spent first when there is a choice for the use of less restricted funds, then assigned, and then unassigned funds.

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is a participant in the Texas Municipal League (TML) Employees Health Insurance Fund, Texas Municipal League Workers' Compensation Joint Insurance Fund (WC Fund), and the Texas Municipal League Joint Self-Insurance Fund (Property-Liability Fund), a public entity risk pool operated by the Texas Municipal League Board for the benefit of individual governmental units located within Texas. The agreement provides that the trust established by TML will be self-sustaining through member premiums. The City pays annual premiums to TML for worker's compensation, general and auto liability, property damage, employee dishonesty, public officials' liability, and law enforcement professional liability coverage. The City does not anticipate any material additional insurance cost assessments as a result of participation in this risk management pool. There were no reductions in insurance coverage from the prior year. Settlements have not exceeded insurance coverage during any of the past three fiscal years.

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

City of Celina, Texas
Notes to Financial Statements

Note 2: Stewardship, Compliance, and Accountability

Budgetary Information

The City Manager submits an annual budget to the City Council in accordance with the laws of the State of Texas and the city charter. The budget is presented to the City Council for review, budget workshops are held with the various City department officials, and public hearings are held to address priorities and the allocation of resources. Generally, in August, the City Council adopts the annual fiscal year budgets for all City operating funds. Once approved, the City Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations.

Each fund's approved budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class as follows: personnel services and related fringe benefits, supplies, other services and charges, capital outlay, transfers, and debt service. Expenditures may not exceed appropriations at the department level. Within this control level, management may transfer appropriations between line items. Line-item transfers within a department are not subject to final review by the City Council. Budget revisions and line item transfers are subject to final review by the City Council. Revisions to the budget were made throughout the year.

The budgets for the operating funds are prepared on the cash and expenditure basis. Revenues are budgeted in the year receipt is expected; and expenditures, which do not include encumbrances, are budgeted in the year that the liability is to be incurred. The Debt Service Fund budget is prepared to provide funding for general obligation debt service when liabilities are due for payment. The General Fund budget and actual included in the basic financial statements is presented on these bases. Unexpended appropriations for annually budgeted funds lapse at fiscal year-end.

Note 3: Deposits and Investments

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned, or the City will not be able to recover collateral securities in the possession of an outside party. The City's policy requires deposits to be fully secured by collateral valued at market or par, whichever is lower, less the amount of Federal Deposit Insurance Corporation (FDIC) insurance. Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health. Collateral agreements must be approved prior to deposit of funds. The City Council approves authorized depository institutions based on the recommendations of City management.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 3: Deposits and Investments (Continued)

Deposits of City of Celina, Texas (primary government) and CCDC were fully insured or collateralized with securities held by the City, CCDC, its agent, or by the pledging financial institution's trust department or agent in the name of the City or CCDC, respectively. Deposits of CEDC were not fully insured or collateralized with securities held by CEDC, its agent, or by the pledging financial institution's trust department or agent in the name of CEDC throughout the year. Deposits of the CEDC were materially secured as of September 30, 2020.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Generally, the City's investing activities are managed under the custody of the Finance Director. Investing is performed in accordance with investment policies adopted by the City Council in compliance with the *Public Funds Investment Act* (PFIA). City investment policy and the PFIA generally permit the City to invest in FDIC insured or fully collateralized certificates of deposit, fully collateralized repurchase agreements, public funds investment pools, obligations of the United States of America or its agencies, direct obligations of the State of Texas and obligations of agencies, counties, cities, and other political subdivisions of Texas having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent. During the year ended September 30, 2020, the City did not own any types of securities other than those permitted by the City investment policy or the *Public Funds Investment Act*.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. City policy generally requires investment maturities to correspond to anticipated cash flow needs. City policy further states that volatile investment instruments shall be avoided and that nonmarketable instruments with maturities beyond one month shall not exceed 30 percent of the portfolio. In addition, investment maturities shall not exceed the following limits:

Operating funds - 30 days

Capital project funds - corresponding draw schedules

Debt service funds - corresponding payment dates, not to exceed (6) six months

Bond reserve funds - (5) five years

Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. City policy requires that the risk of principal loss in the portfolio as a whole shall be minimized by diversifying investment types to eliminate the risk of loss from over-concentration of assets in a specific issuer, or a specific class of securities.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 3: Deposits and Investments (Continued)

For investments, **custodial credit risk** is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities in the possession of an outside party. The City's policy on safekeeping and custody requires that investments shall be secured through safekeeping agreements. All investment funds shall be placed directly with qualified financial institutions selected through the City's banking procurement process. All transactions shall be executed on a delivery versus payment basis.

Note 4: Receivables

Proprietary Fund Receivables, Uncollectible Accounts, and Unearned Revenue

Significant receivables include amounts due from customers primarily for utility services. The Proprietary Fund reports accounts receivable net of an allowance for uncollectible accounts and revenues net of uncollectible amounts. The allowance amount is estimated using accounts receivable past due more than 60 to 90 days.

The following is the detail of the Proprietary Fund receivables and the related allowance for uncollectible accounts:

Accounts receivable, gross	\$ 2,452,763
Less: allowance for uncollectible accounts	<u>(175,315)</u>
Net accounts receivable	<u>\$ 2,277,448</u>

Property Taxes Receivable, Unearned Revenues, and the Property Tax Calendar

Property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the City. Assessed value represents the appraisal value less applicable exemptions authorized by the City Council. The Appraisal Board of Review establishes appraised values at 100.00% for estimated market value. A tax lien attaches to the property on January 1 of each year, to secure the payment of all taxes, penalties and interest ultimately imposed for the year on that property, whether or not the taxes are imposed in the year the lien attaches. Taxes are due on October 1 immediately following the levy date and are delinquent after the following January 31st.

The property tax rate for the year ended September 30, 2020 was .645 per \$100 of the assessed valuation on taxable property.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 4: Receivables (Continued)

The following is a summary of the overall tax rate as levied by fund:

Maintenance and operations – General Fund	.4536
Interest and sinking – Debt Service Fund	<u>.1914</u>
Total tax rate	<u><u>.6450</u></u>

In the governmental fund financial statements, property taxes are recorded as receivables in each of the respective funds on the tax levy date with appropriate allowances for estimated uncollectible amounts. At fiscal year-end, property tax receivables represent delinquent taxes. If delinquent taxes are not paid within 60 days of year-end, they are recorded as deferred inflows of resources.

In the government-wide financial statements, property taxes receivable and related revenue include all amounts due the City with a 10.00% allowance for estimated uncollectible amounts regardless of when cash is received. Over time substantially all property taxes are collected.

Allowance for Uncollectible Taxes

The City records an allowance for uncollectible property taxes in order to estimate the amount of taxes that will ultimately prove to be uncollectible. Management has determined that an allowance in the amount of ten percent (10.00%) of the property taxes receivable in each of the applicable fund types should be adequate to provide for uncollectible property taxes. No provisions are made for uncollectible sales tax receivables, or grants receivable as management estimates that these amounts will be fully collectible.

Fines and Court Costs Receivable and Related Allowances

In the government-wide financial statements, the City records fines and court costs receivable net of amounts estimated to be uncollectible and net of any amounts that would be due to other governmental entities as a result of collection. Management has determined the estimate of uncollectible fines and court costs through an analysis of actual amounts collected subsequent to year end. Amounts due to other governmental entities have been determined based on distribution requirements of the State of Texas.

Long-term Obligations Supporting Governmental Activities

The government issues general obligation bonds and certificates of obligation to provide funds for the acquisition and construction of major capital facilities. General obligation bonds and certificates of obligation have been issued for both governmental and business-type activities and are direct obligations and pledge the full faith and credit of the government. These bonds and certificates generally are issued as serial bonds with equal amounts of principal maturing each year with maturities of 20 years. General obligation bonds and certificates of obligation are to be repaid with property taxes levied for debt service and recorded by the Debt Service fund. The City's borrowing capacity is restrained by maintaining the City's debt at a responsible level. Other debt issued to support governmental activities are capital lease obligations which are primarily paid from the General Fund and Facilities Improvement Fund.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 6: Long-Term Obligations (Continued)

Interest expense for governmental activities was \$1,752,515 and is reported as a separate line item in the statement of activities.

Business-type Activities - Revenue Bonds

Revenue bonds consist of debt issued to support activities of the Proprietary (water and sewer) Fund. In addition to being backed by the full faith and credit of the City, revenue bonds are secured by a lien on and a pledge of the surplus revenues of the water and sewer system.

The City entered into an agreement during fiscal year 2020 with Marilee Special Utility District, formerly known as Gunter Special Utility District, for purchase of 2,225 acres of the Marilee CCN for a total of \$1,151,000. Five annual installments will be made beginning in fiscal year 2021 with no interest applied.

Interest expense for business-type activities and the Proprietary (water and sewer) Fund was \$2,800,484 for the year.

Capital lease agreements represent general obligations of the City and are secured by the equipment acquired by the capital lease proceeds. Current requirements for principal and interest of capital lease obligations are accounted for in the appropriate fund for which the liability was incurred.

Compensated absences are paid from the fund responsible for the employee's compensation with significant liabilities payable from the General Fund and Water & Sewer Fund.

Debt Service Requirements to Maturity

The annual debt service requirements to maturity for bonded debt and capital lease are as follows at year end:

Year Ending September 30	Governmental Activities				Total Required

Note 6: Long-Term Obligations (Continued)

Proceeds of the bonds were deposited into trust accounts with U.S. Bank N.A. (U.S. Bank) for the purpose of funding improvements in the projects described above. U.S. Bank serves as trustee, for the benefit of the bond holders, for these funds as well as any and all other property or money of every name and nature, which is, from time to time hereafter by delivery or in writing of any kind, conveyed, pledged, assigned, or transferred to the trustee. The City is not obligated in any manner for this special assessment debt but merely acts as the property owner's agent in handling the debt service transactions by collecting any special assessment tax collections and forwarding them to the bondholders. Collections have begun. Assessment collections for all of the City's Special Assessment Revenue Bonds are on time and complete at year end.

Note 7: Component Unit Debt Obligations

CEDC has the following debt obligation:

	Beginning Balance	Increase	Decrease	Ending Balance	Due Within One Year
Note Payable	\$ 1,044,263	\$ -	\$ 209,974	\$ 834,289	\$ 74,822

In March 2020, CEDC entered into a note payable agreement with Lamar National Bank in the principal amount of \$ 1,044, 263 with a fixed rate of interest equal to 3.75% to refinance a loan with a predecessor bank. Interest only payments are due monthly until March 22, 2030, when the entire principal balance is due. The note payable is unsecured but is expected to be paid out of the sales and use taxes that will be levied and collected by the City of Celina, Collin County, Texas pursuant to the *Development Corporation Act*, Chapter 501, 502 and 504 of the Texas Local Government Code. At September 30, 2020, the outstanding CEDC note balance was \$834,289.

The following is the annual debt service requirements to maturity for the note payable:

Year Ending September 30	Principal	Interest	Total Required
2021	\$ 74,822	\$ 30,660	\$ 105,482
2022	77,243	27,791	105,034
2023	80,223	24,812	105,035
2024	83,316	21,718	105,034
2025	86,529	18,504	105,033
2026-2030	<u>432,156</u>	<u>40,088</u>	<u>472,244</u>
Totals	<u>\$ 834,289</u>	<u>\$ 163,573</u>	<u>\$ 997,862</u>

Note 8: Defined Benefit Pension Plans

Plan Description

The City of Celina, Texas participates as one of 887 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the *TMRS Act*, Subtitle G, Title 8, Texas Government Code (TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS' s defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report that can be obtained at www.tmrs.com. All eligible employees of the City are required to participate in TMRS.

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75.00% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Employee deposit rate	7.0%
Matching ratio (City to Employee)	2 to 1
Years required for vesting	5
Service retirement eligibility	20 years at any age, 5 years at age 60 and above
Updated service credit	0%
Annuity increase to retirees	0% of CPI

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 8: Defined Benefit Pension Plans (Continued)

At the December 31, 2019, valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	17
Inactive employees entitled to but not yet receiving benefits	96
Active employees	<u>159</u>
	<u><u>272</u></u>

Contributions

The contribution rates for employees in TMRS are either 5.00%, 6.00%, or 7.00% of employee gross earnings, and the City matching percentages are either 100.00%, 150.00% or 200.00%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees of the City were required to contribute 7.00% of their annual gross earnings during the fiscal year. The contribution rates for the City were 6.47% and 6.34% in calendar years 2020 and 2019, respectively. The City's contributions to TMRS for the year ended September 30, 2020, were \$772,301 and were equal to the required contributions.

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2019, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year
Investment Rate of Return	6.75%, net of position plan investment expense, including inflation

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 8: Defined Benefit Pension Plans (Continued)

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a four-year set-forward for males and a three-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between: (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2020 are summarized in the following table:

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 8: Defined Benefit Pension Plans (Continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	30.00%	5.30%
Core Fixed Income	10.00%	1.25%
None-Core Fixed Income	20.00%	4.14%
Real Return	10.00%	3.00%
Real Estate	10.00%	3.85%
Absolute Return	10.00%	3.48%
Private Equity	10.00%	7.75%
Total	<u>100.00%</u>	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

City of Celina, Texas

Note 8: Defined Benefit Pension Plans (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2020, the City recognized pension expense of \$726,216.

At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,447	\$ 55,418
Changes in actuarial assumptions	41,120	128
Difference between projected and actual investment earnings	-	266,334
Contributions subsequent to the measurement date	<u>582,543</u>	<u>-</u>
Total	<u>\$ 629,110</u>	<u>\$ 321,880</u>

\$582,543 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending September 30,	Amount
2020	\$ (60,635)
2021	(68,411)
2022	(10,389)
2023	(128,402)
2024	(4,192)
Thereafter	<u>(3,284)</u>
Total	<u>\$ (275,313)</u>

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 9: Postemployment Benefits Other Than Pensions (OPEB)

Plan description - The City maintains a single-employer defined benefit group-term life insurance plan known as the TMRS Supplemental Death Benefits Fund (SDBF). The plan is administered by the TMRS. This is a voluntary program in which the City elected, by ordinance, to provide group-term life insurance coverage for their active members, including retirees. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded other postemployment benefit (OPEB) plan (i.e. no assets are accumulated in a trust that meets the criteria in paragraph four of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*).

Benefits provided - The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12 month period preceding the month of death). The death benefit for retirees is considered an OPEB and is a fixed amount of \$7,500.

Employees Covered by Benefit Terms

At the December 31, 2019 actuarial valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	13
Inactive employees entitled to but not yet receiving benefits	11
Active employees	<u>159</u>
Total	<u>183</u>

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to prefund retiree term life insurance during employees' entire careers.

The City's SDBF contribution rate for all covered employees of the City in calendar years 2020 and 2019 was .13%. The City's contributions for all covered employees to the TMRS SDBF for the fiscal years ended September 30, 2020 and 2019, were \$25,370 and \$12,798, respectively, which equaled the required contributions for each year. The retiree portion of this contribution rate (OPEB portion) was 0.00% of covered payroll in calendar years 2020 and 2019.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 9: Postemployment Benefits Other Than Pensions (OPEB) (Continued)

Total OPEB Liability

The City's total OPEB liability (TOL) of \$133,565 was measured as of December 31, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Inflation	2.50% per year
Salary Increase	3.50% to 11.50% including inflation
Discount Rate	2.75% (3.71% in prior year)
Retirees Share of Benefit Costs	\$0

Salary increases were based on a service-related table. Mortality rates for service retirees were based on the RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender- distinct RP2000 Combined Healthy Mortality Table with Blue Collar Adjustment is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2019 valuation were developed primarily from an actuarial experience study of the four-year period December 31, 2010 through December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. In conjunction with these changes first used in the December 31, 2013 valuation, TMRS adopted the entry-age normal actuarial cost method.

The current year discount rate used to measure the total OPEB liability was 3.71% and was based upon the Fidelity Index's "20-year Municipal GO AA Index" rate as of December 31, 2019. The prior year discount rate used to measure the total OPEB liability was 3.31% and was based upon the Fidelity Index's "20-year Municipal GO AA Index" rate as of December 31, 2017.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 9: Postemployment Benefits Other Than Pensions (OPEB) (Continued)

Changes in the Total OPEB Liability

	Total OPEB Liability
Balance at October 1, 2019	\$ 84,798
Changes for the year:	
Service cost	21,538
Interest on total OPEB liability	3,527
Differences between expected & actual experience	(5,434)
Changes in assumptions and other inputs	30,162
Benefit payments*	(1,026)
Net changes	<u>48,767</u>
Balance at September 30, 2020	<u><u>\$ 133,565</u></u>

*Due to the SBDF being considered an unfunded OPEB plan under GASB Statement No. 75, benefit payments are treated as being equal to the employer's yearly contribution for retirees.

The SDBF does not incur TMRS Administrative Expenses. The City is charged, and the administrative expenses are paid through the TMRS Defined Benefit Pension Plan recorded under GASB Statement No. 68.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the discount rate of 2.75%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.75%) or 1-percentage-point higher (3.75%) than the current rate:

	1 % Decrease (1.75%)	Discount Rate (2.75%)	1% Increase (3.75%)
Total OPEB liability	\$ 170,066	\$ 133,565	\$ 106,480

Notes to Financial Statements
September 30, 2020

Note 9: Postemployment Benefits Other Than Pensions (OPEB) (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2020, the City recognized OPEB expense of \$27,592. At year-end, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 121	\$ 4,857
Changes in assumptions and other inputs	31,647	6,277
Contributions made subsequent to measurement date	<u>9,597</u>	
Total	<u><u>\$ 41,365</u></u>	<u><u>\$ 11,134</u></u>

\$9,597 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability for the year ending September 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended September 30:	Amount
2020	\$ 2,527
2021	2,527
2022	2,527
2023	2,527
2024	2,527
Thereafter	<u>7,999</u>
Total	<u><u>\$ 20,634</u></u>

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 10: Transfers and Payments Within the Reporting Entity

Transfers and Payments

Transfers and payments within the reporting entity are substantially for the purposes of funding capital projects and asset acquisitions, transferring bond proceeds between funds, or maintaining debt service on a routine basis. Resources are accumulated in a fund to support and simplify the administration of various projects or programs. The following schedule reports transfers and payments within the reporting entity:

Fund	Transfers In	Transfers Out
General Fund	\$ 1,069,398	\$ 7,210,697
Debt Service Fund	-	109,716
Street Construction Fund	-	8,340,616
Facilities Improvement Fund	-	1,241,897
Parkland Fees Fund	-	623,414
Fire Improvement Fund	-	2,432,553
Bond Fund	17,215,121	-
Nonmajor Governmental Funds	5,244,533	817,238
Water and Sewer Fund	-	2,752,921
	<u>\$ 23,529,052</u>	<u>\$ 23,529,052</u>

The majority of the transfers out relate to the \$17.2 million transfer to the Bond Fund. The purpose was to reallocate construction funds into bond issuance series for improved oversight and controls. In addition, \$3.8 million was transferred as part of the Nonmajor Governmental Funds for the Vehicle Replacement Program and another \$731,612 was a transfer for services from the Water Wastewater Fund to the General Fund.

Note 11: Contingencies

The City participates in various state and federal grant programs and contracts which are subject to financial and compliance audits by the grantors or their representatives. Audits of these programs for the year ended September 30, 2020, have not been conducted. Accordingly, the City's compliance with applicable grant and contract requirements will be established at some future date. The City expects that costs disallowed by these various awarding agencies, if any, would be minimal.

City of Celina, Texas
Notes to Financial Statements
September 30, 2020

Note 12: Litigation

From time to time, the City is involved in litigation in the ordinary course of business. City management considers the likelihood of any material liability resulting from this litigation to be remote.

Note 13: UTRWD Contractual Requirements

The following is a summary of the City's contractual requirements for future payments under the agreements with UTRWD by year for the first five years and in total thereafter:

Year Ending September 30,	Annual Requirement
2021	\$ 1,185,062
2022	837,728
2023	835,698
2024	835,698
2025	835,698
Thereafter	<u>10,111,831</u>
Total required	<u>\$ 14,641,715</u>

Note 14: Subsequent Events

On December 30, 2020, the City received a COVID-19 Coronavirus Relief Fund grant of approximately \$396,000 from Collin County.

On January 21, 2021, the City of Celina issued \$62,000,000 in Series 2021 Tax and Waterworks and Sewer System (Limited Pledge) Revenue Certificates of Obligation, Series 2021 bonds.

Contributions deficiency (excess)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
Covered payroll	\$ 11,996,779	\$ 9,844,203	\$ 7,245,746	\$ 5,230,520	\$ 4,486,771	\$ 3,388,197
Contributions as a percentage of covered payroll	6.44%	6.34%	6.35%	6.21%	5.30%	4.79%

Schedule Notes:

Valuation Dates:

Notes Actuarially determined contribution rates are calculated as of December 31 and become effective in January, 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	N/A
Asset Valuation Method	10 year smoothed market; 12% soft corridor
Inflation	2.50%
Salary Increases	3.50% to 11.50% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

Other Information:

Notes There were no benefit changes during the year.

The information in this schedule has been determined as of the City's most recent fiscal year-end and is intended to show information for 10 years. However, until a full 10-year trend is compiled in accordance with the provision of GASB 68, only periods for which such information is available are presented.

City of Celina, Texas

Schedule of Changes in Total OPEB Liability and Related Ratios

Last Two Fiscal Years

	Actuarial Valuation & Measurement Date		
	December 31,		
	2019	2018	2017
Total OPEB Liability			
Service cost	\$ 21,538	\$ 19,940	\$ 12,362
Interest on the total OPEB liability	3,527	2,646	2,074
Changes of benefit terms	-	-	-
Difference between expected and actual experience	(5,434)	155	-
Changes in assumptions or other inputs	30,162	(8,000)	6,931
Benefit payments	(1,026)	-	-
Net Change in Total OPEB Liability	48,767	14,741	21,367
Total OPEB Liability – Beginning	84,798	70,057	48,690
Total OPEB Liability – Ending	<u>\$ 133,565</u>	<u>\$ 84,798</u>	<u>\$ 70,057</u>
Covered Payroll	\$ 10,256,387	\$ 7,976,159	\$ 5,618,903
Total OPEB Liability as a Percentage of Covered Payroll	1.30%	1.06%	1.25%

Schedule Notes:

Plan information:

Single-employer unfunded OPEB plan There are no assets accumulated in a trust that meets the criteria in GASB Statement No.75 paragraph four to pay related benefits.

Actuarial Valuation & Measurement Date: December 31

Significant actuarial assumptions used to measure the total OPEB liability:

Inflation	2.50%
Salary Increases	3.50% to 11.50%, including inflation
Discount Rate	2.75% (Based on Fidelity Index's "20-year Municipal GO AA Index" rate as of 12/31/19). 3.71% in prior year.
Retiree's Share of Benefit-related Costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No.68
Mortality - Service Retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.
Mortality - Disabled Retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4 year set forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

*Due to the SDBF being considered an unfunded OPEB plan under GASB 75, benefit payments are treated as being equal to the employer's yearly contributions for retirees.

This schedule is presented to illustrate the requirements to show information for 10 years. Future years will be provided as the information becomes available.

*Due to the SDBF being considered an unfunded OPEB plan under GASB 75, benefit payments are treated as being equal to the employer's yearly contributions for retirees.

The information in this schedule has been determined as of the measurement date (December 31) of the City's total OPEB liability and is intended to show information for 10 years. However, until a full 10-year trend is compiled in accordance with the provision of GASB 75, only periods for which such information is available are presented.

and Schedules**

Major Governmental Funds

Page has been left blank intentionally.

Major Governmental Funds

Debt Service Fund

Capital Projects Funds

Debt Service Fund – accounts for the accumulation of financial resources for the payment of principal and interest on the City's general obligation debt. The City annually levies ad valorem taxes restricted for the retirement of general obligation bonds, capital leases, and interest. This fund reports all such ad valorem taxes collected.

Street Construction Fund – accounts for the financing and acquisition of major capital street projects. Fund resources are provided primarily through bond sales and interest earnings. This major governmental fund does not have a legally adopted budget.

Facilities Improvement Fund – to account for the financing and renovation or construction of City buildings. Proceeds are primarily from the sale of General Obligation bonds, Certificates of Obligation Bonds and non-recurring revenue sources. This major governmental fund does not have a legally adopted budget.

Parkland Fees Fund – accounts for the financing and acquisition of major capital park projects. Fund resources are provided primarily through developer park contributions and grants.

Fire Improvement Fund – accounts for the financing and acquisition of capital fire improvement projects. Fund resources are provided primarily through bond sales and interest earnings. This major governmental fund does not have a legally adopted budget.

Bond Fund – to account for the acquisition or construction of streets and other capital projects being financed through bond proceeds, or transfers from other funds.

Page has been left blank intentionally.

Nonmajor Governmental Funds

Life Connected.

Nonmajor Governmental Funds

Roadway Impact Fees Fund – is used to account for fees paid by developers for construction of streets under the Roadway Impact Fees ordinance.

Capital Equipment Replacement Fund – to account for public safety capital replacements including vehicles and equipment.

Capital Acquisition Fund – established as a reserve fund for capital and smaller infrastructure needs. Funding is from transfers in from the General Fund.

Roadway Capital Recovery Fees Fund – to account for roadway capital recovery fees paid by developers to the City for roadway construction.

Technology Fund – to account for technology infrastructure improvements and computer hardware/software needs. Source of funding is from developer fees when obtaining building permits.

Stabilization Fund – Established to help the City maintain resiliency by ensuring adequate balance to cash flow requirements during economic turbulence.

Developer Capital Fees Fund – to account for Developer Fees paid to build capital projects per the agreements.

Court Special Revenue Fund – to account for the restricted Court fees to be used to pay for technology expenses and security expenses specific to the Court.

Other Special Revenue Funds – to account for various grants, PEG fees, Law Enforcement, and Contributions/Donations to the City.

Statistical Section (Unaudited)

Statistical Section

This section of the City of Celina's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the City's overall financial health. This information has not been audited by the independent auditor.

Contents	Table Numbers
<i>Financial Trends</i> These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	1-5
<i>Revenue Capacity</i> These tables contain information to help the reader assess the City's two most significant revenue sources-property and sales taxes.	6-9
<i>Debt Capacity</i> These tables present information to help the reader assess the affordability of the City's current level of outstanding debt and the City's ability to issue additional debt in the future.	10-14
<i>Economic and Demographic Information</i> These tables offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	15-16
<i>Operating Information</i> These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides.	17-19

Source: Unless otherwise noted, the information in these tables is derived from the City's past audit reports for the relevant year.
